

SCHWEGO® cream 8192

Cleaning gel for ink rollers

Function: **SCHWEGO® cream 8192** will remove tenacious ink residues from the roller pores.

Especially the changing of inks from dark to light colour tones can be done in a fast and efficient way by means of the gel.

Properties:

- Pore-deep, intensive cleaning of the ink rollers
- Fast changing of inks „dark / light“
- Improved ink reception of the rollers
- VOC-free
- Free from aromatic compounds
- Use of renewable raw materials
- Reduction of the quantity of washing agent used
- Usable for UV and UV alternating operations
- No need for classification
- Certified by **ISEGA** for food packaging

Application: First prewash the ink rollers with a washing agent (**SCHWEGO® mat 8443**). Then apply **SCHWEGO® cream 8192** on the rollers and let them rotate for a few minutes. Then squeeze the ink-gel mixture together with the washing agent.

In order to maintain the rollers we recommend to use **SCHWEGO® plus 8441** after that. This combination will ensure an optimum cleaning and maintenance of the rollers.

Tip: Certified by BG ETEM as "low emission product"

Subject to appropriate storage, the described properties of **SCHWEGO® cream 8192** remain stable for at least 18 months.

Packaging: 1 kg can
