

SCHWEGO® dur 8293

Cleaning paste for metal surfaces

Function: Ink residues, lint, flash rust etc. will stick to bright machine parts during the printing process. In most cases, impression cylinders, angle bars, folder formers and parts of finishing machines or similar units are concerned.

SCHWEGO® dur 8293 will clean the surface gently and intensively and will form a protective film against renewed soiling.

Properties:

- Intensive and gentle cleaning at the same time
- Economical in use
- Protection against flash rust
- Formation of a long-term protective layer

Application: **SCHWEGO® dur 8293** is applied with a rag. Clean the area to be treated with circular movements. Then wipe again with a dry rag.

Tip: Subject to appropriate storage, the described properties of **SCHWEGO® dur 8293** remain stable for at least 24 months.

Packaging: 250 g tube
